**CAMP REGISTRATION**

Criteria for placement in groups include: balancing groups by age, sex, and race and creating the best possible group dynamics. Final decisions about placement are made by the administrative staff in consultation with teachers. Children must be 3 by September 1 and toilet trained to enroll. Initial enrollment is for the full 6 weeks only.

Families wanting 3-week sessions or with children not yet toilet trained should complete this application and submit it without payment to be placed on waiting lists in order of date received. As appropriate spaces become available for 3-week or recently toilet trained campers, the \$100 initial payment will be required to hold the space. Families of children with special needs should meet with the Child Development/Inclusion Director prior to enrollment to determine the appropriateness of the camp program for their child.

Camp meets Monday through Thursday, 9:30-12:30. The cost of the program is \$780. Tentative camp class lists will be distributed by May 15.

**Priority for enrollment is given in the following order:**
